**SUMMER READING – ENGLISH**

**SENIORS**

**DIRECTIONS:** Read one literary work of fiction and one nonfiction book from the list below and the list on the reverse side of the paper for a total of two books. Be sure that you read titles listed for your grade level as of September; ask the librarian if you are unsure.

**Assessment:** When you return to school in the fall, you will be tested on your summer reading assignment. This exam will be administered during the first marking period and will count as a test grade. In order to prepare for the exam you should take notes while you are reading. For each book that you read, your notes should include the title, author, names of the main characters, setting, theme and a brief description of the plot. In addition, you should maintain an ongoing list of new vocabulary words and their definitions.
